

LEGION **NXT**

THE **NEXT LEVEL** IN TURF SYSTEMS

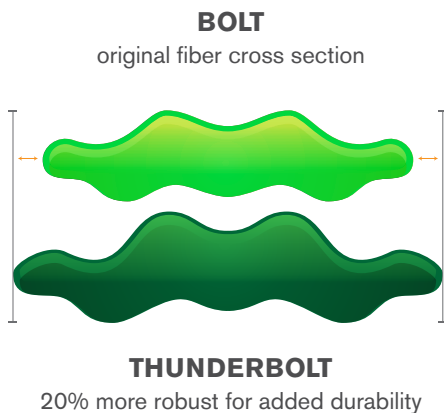

Shaw Sports Turf's newest system using the unique ThunderBolt fiber, Legion NXT is a hybrid system that offers realistic aesthetics with an electrifying degree of durability. This system is built for strength, built for pushing the envelope and providing endurance through even the toughest of match-ups.

WHAT IS LEGION NXT?

As a combined monofilament and slit film system, Legion provides the best hybrid synthetic surface in the market. So, why not make a good thing better? With the introduction of the ThunderBolt fiber, Legion stepped up its durability and performance to the next level. This bigger, more robust version of the original Bolt design gives that much more to the natural aesthetic, ball control, and other critical surface requirements for high-end play.

THUNDERBOLT monofilament & premium slit film fibers	SINGLE NEEDLE CONSTRUCTION for improved appearance & consistency	ONE OF THE MOST DURABLE products designed in the industry
MINIMAL SIGNS OF WEAR up through 80,000 cycles (32 YEARS of heavy use)		VARYING PILE HEIGHTS for complete customization to your requirements

FIBER

Dual fiber combination of ThunderBolt monofilament + slit film

INFILL

Mixture of materials (sand, rubber or natural) to create preferred performance characteristics

ULTRALOC® COMPOSITE BACKING

Multiple layers of backing
