

Nature's Choice

A child's first playground is usually their own backyard, complete with the thrill of climbing trees, scaling rocks, and learning about the world around them. Miracle Recreation has incorporated the fun of nature into their classic playground designs with the addition of Nature's Choice, a fully integrated play experience!

INTRODUCING... Nature's Choice

Nature's Choice combines nature-themed elements such as logs and rocks with different configurations of rope to provide your Miracle playground structure with a natural play experience full of adventure and movement! Replicating the essence of climbing trees, scaling boulders, and role-playing, Nature's Choice components bring the excitement and wonder of the wilderness to life.

Merging nature-inspired textures with the benefits of quality materials and design provides you with an affordable, low-maintenance solution for your playspace. Kids will love climbing the Monoliths, traversing the Rope Bridges, and bounding across the log and rock Roamers!

Adventure awaits...

Add Nature's Choice to your play system!

Nature's Choice gives you the beautiful look of natural products with the safety and durability you have come to expect from Miracle Recreation playground products. Our line of Monoliths, Roamers, and Ropes create challenging layouts and play events with unique and intriguing designs. Add Nature's Choice climbing and travel events to our traditional playground systems to create an amazing space reminiscent of the great outdoors for children to play.

build-a-park!

ropes

Our dynamic rope designs connect to Monolith structures, creating a fun pathway for kids to move across! Built with secure steel cores, our rope bridges are easy to maintain and provide kids with a safe place to swing, climb, and play.

Wood Spider Web

X Rope

With 12 different styles of ropes, nets and bridges, Nature's Choice offers endless configurations to add to your Miracle playground structure!

Nature's Choice Ropes connect to Monolith structures to provide a safe place for kids to climb and move!

Rope Bridges

- Deliver strong outdoor linking pieces
- Provide active climbing and crossing opportunities
- Offer a place for children to test their climbing skills

Nets & Webs

- Provide a sturdier climbing environment for younger children
- Encourage the development of social skills with group play
- Offer an environment to strengthen physical skills

monoliths

Designed as large anchor pieces, Monoliths add a towering and exciting climbing event to any Miracle playground! The large climbing structures are made of solid PolyFiberCrete®, providing a smooth grip for a safe climbing experience. With nine different variations to choose from, our Monoliths are designed for children of all abilities, allowing everyone to join in on the adventure!

Matterhorn Rock

Ant Rock

Peekaboo Rock

With a variety of looks including the Ant Rock and Peekaboo Rock, Monoliths provide countless options for climbing events to fit your unique playground design.

Inspiring kids to get outside & play!

Lookout Rock

roamers

Roamers encourage running, jumping and climbing! Designed as logs and boulders, they provide an inexpensive, low to the ground path for children to travel across the playground.

Cave Rock

Hop Rocks

Hop Rocks are perfect for linking Roamers to each other, adding different heights and climbing experiences between the parts. Hop Rocks also add a place to strengthen agility and promote energetic, lively play.

Our logs are designed to look like natural tree logs with a realistic bark texture, adding another dimension of exploratory play.

materials

Nature's Choice is made of PolyFiberCrete®, a solid, synthetic sandstone made with Portland Cement, fibers, sand, and proprietary add mixtures. It naturally has a variegated surface and authentic hairline cracks that looks like a real rock.

What is PolyFiberCrete®?

- PolyFiberCrete® offers the best in non-abrasive climbing grip, safety and durability.
- Hit it with a sledgehammer and create more handholds!
- PolyFiberCrete® does not crack or shatter like hollow products such as GFRC and fiberglass.
- PolyFiberCrete® products can only be chipped, not cracked open.
- PolyFiberCrete® does not splinter like natural wood products.
