

# PRODUCT SELECTION GUIDE

## BECAUSE IT'S MORE THAN A FIELD

When you choose Shaw Sports Turf, you're teaming up with a decades-long legacy of extraordinary performance and innovation driven by our parent company, Shaw Industries, a Berkshire Hathaway subsidiary.

With over 3,000 successful installations it's a legacy we're leveraging to provide high performance synthetic turf systems—setting new standards for design, quality and service in the process.

Mirroring the Shaw standard of service, our customer-focused culture allows for nothing short of 100% satisfaction.

# HOW TO CHOOSE

## THE FIBER TYPE THAT WILL BEST MEET YOUR NEEDS?

### SLIT FILM

What is slit film? Also known as fibrillated or monotape. A single tape is made and then cut into slits from top to bottom to divide it in several tapes. Its interlaced structure makes it very **durable**, and **reduces infill flyout**. While our slit film fiber is great for many applications, it performs especially well for sports that require more toughness and strength including football fields, baseball/softball infields and in multi-use facilities.

#### STRENEXE

Available in our Momentum SD and HP systems, the Stenexe fiber is a work horse that provides just the right balance of durability and performance.

#### STRENEXE XD

The Strenexe XD fiber is available in the Momentum Pro system. This fiber has a superior slit film construction and has duotone color for tremendous versatility. It creates a long-lasting and consistent playing surface.

### MONOFILAMENT

What is monofilament? It is a single strand of synthetic fiber bundled together to achieve a grass-like appearance. A monofilament fiber results in a more **controlled ball roll**. Monofilament also has less glare than a slit film resulting in a more **natural aesthetic**. While our monofilament fiber is an excellent option for numerous applications, it performs especially well for sports where ball-to-surface interaction is a key factor, including soccer fields and baseball/softball outfields.

#### BOLT MONOFILAMENT

The Bolt fiber, offered on premium turf systems, has a patented lightning bolt shape. This innovative shape gives it a stronger vertical axis for less breakdown and wear. The unique curved angles disperse light for a lower luster making a bolt field one of the most natural looking fields in the market.

#### THUNDERBOLT MONOFILAMENT

The evolution of our top-performing Bolt fiber, ThunderBolt is a high micron option of the unique lightning bolt shape now available in our NXT products for that extra level of durability.

### THATCH

What is thatch? It is a textured yarn that is situated below the face yarn to enhance grass-pile recovery. It is added to systems to create a **matrix of protection** that minimizes infill movement and reduces migration to other areas of the field. This provides an extra layer of protection against inconsistent and unsafe playing surfaces.

## SLIT FILM SYNTHETIC TURF SYSTEM

# MOMENTUM®

Movement is at the core of all things sport: the athletes, the ball, and all interactions in between. Shaw Sports Turf's Momentum fiber system has what it takes to keep all the action on the field at full speed. Using slit film technology, its interlaced structure holds down infill and reduces fly-out while maintaining a sturdy, steady, and reliable playing surface for athletes to consistently play in peak conditions. In fact, slit film technology was the fiber basis for infilled systems from the beginning and is still chosen for its durability and performance characteristics.

Momentum is available in different configurations, each with its own distinct benefits to keep players on the move all season, every season.

### MOMENTUM PRO

Utilizes the premium Strenexe XD fibers for superior construction

.....  
Duotone color versatility for aesthetics  
.....

Face weight optimized to provide the right mix of durability and performance

### MOMENTUM

Strenexe slit film fibers for the right system construction

.....  
Flexible fiber options to build a system to meet your field's needs

### All systems come with:

- Ultraloc backing system that provides dimensional stability and improved tuft bind
- Perfect mix of durability and performance
- Industry leading quality
- Shaw backed warranty

## MONOFILAMENT SYNTHETIC TURF SYSTEM

# POWERBLADE®

Power is an explosive mix of strength and speed, a critical formula to outperform the competition. Shaw Sports Turf's PowerBlade fiber system provides the foundation athletes need to harness their potential. It is the go-to system for a surface where interaction with both the athlete and the ball are crucial to performance. Featuring long-lasting monofilament fibers designed to look and play more like natural grass, PowerBlade fields are ready to go, from pre-season to playoffs, for years to come.

PowerBlade comes in different configurations, each with its own distinct benefits to turn a field into a powerhouse.

### POWERBLADE NXT

Premium combination of Bolt and  
ThunderBolt monofilament fibers

.....  
Optimized face weight

### POWERBLADE PRO

Premium Bolt monofilament fiber

.....  
Optimized face weight

### POWERBLADE

Flexible fiber options to build a system to  
meet your field's needs

#### All systems come with:

- Ultraloc backing system that provides dimensional stability and improved tuft bind
- Natural appearance
- Designed for performance characteristics
- Shaw backed warranty

## HYBRID SYNTHETIC TURF SYSTEM

# LEGION®

A team is a collection of players that work together to achieve a common goal. Just as teams have different positions for different roles, so does each part of Shaw Sports Turf's Legion fiber system. Combining slit film and monofilament fibers into one complete system, Legion provides the benefits of both: not only does it look like natural grass and allow for better ball roll, but it also has added durability and infill control.

Legion is available in different configurations, each with its own distinct benefits to make athletes play in a whole different league.

### LEGION NXT

High micron Thunderbolt monofilament and slit film fibers

.....  
One of the most durable products in the market

### LEGION PRO

Premium construction of both Bolt monofilament and slit film fibers

.....  
Optimized face weight for performance and infill flyout control

### LEGION

Our best selling product

.....  
Flexible fiber options to build a system to meet your field's needs

#### All systems come with:

- Ultraloc backing system that provides dimensional stability and improved tuft bind
- Designed for optimal performance characteristics and allows for control of infill flyout
- Great balance of traction, foot stability and aesthetics
- Shaw backed warranty

SYNTHETIC TURF SYSTEM WITH THATCH

# SPIKE ZONE®

Confidence in sport is built on trust—a trust in proven ability earned through hard work. Using a combination of fibers, Spike Zone synthetic turf systems by Shaw Sports Turf are designed with that same confidence in mind, backed with the science and testing to prove it. The tall fibers support the requirements for the ball and athlete to perform well, while the thatch layer adds another level of consistency for each step. How? Thatch supplies a matrix of protection that minimizes infill movement. The result is a field that appears lush, plays well, and lasts.

Each Spike Zone option is one of our proven Shaw Sports Systems combined with a valuable thatch layer.

## SPIKE ZONE PRO

Patented design of threading 3 fibers, monofilament, slit film and thatch fibers, through a single needle

.....  
Optimized face weight

## SPIKE ZONE

Flexible fiber weights and construction using monofilament or slit film with a thatch layer to build a system to meet your field's needs

### All systems come with:

- Ultraloc backing system that provides dimensional stability and improved tuft bind
- Spike Zone thatch layer helps reduce infill fly-out
- Maximum cleat-infill interaction
- Natural aesthetic, high performance and increased durability
- Shaw backed warranty

WHAT IS SHAW SPORTS TURF?

**IT'S MORE THAN A FIELD.**

IT'S A TOUCHDOWN DRIVE LATE IN THE GAME.

IT'S A WALK-OFF HOME RUN ON A SPRING AFTERNOON.

IT'S A PENALTY KICK TO WIN THE REGION CHAMPIONSHIP.

IT'S THE KIND OF TOUGH COACHING  
THAT MAKES YOU BETTER AT BALL & LIFE.

**IT'S A TOUGH LOSS THAT SPARKS**

A DRIVE & INTENSITY THAT WASN'T THERE BEFORE.

IT'S A GREAT PERFORMANCE BY A 200-MEMBER BAND

**AT HALFTIME ON FRIDAY NIGHT.**

IT'S A BOOSTER CLUB MEETING TO PLAN FOR A GREAT SEASON.

IT'S REHASHING THE GAME OVER COFFEE

AT THE LOCAL DINER ON SATURDAY MORNING.

**IT'S HOLDING HANDS IN THE STANDS.**

IT'S A LITTLE BROTHER WHO WANTS TO GROW UP

**& WEAR THE SAME NUMBER.**

IT'S DREADING TWO-A-DAYS IN AUGUST, BUT PRAYING THAT

**YOU'LL STILL BE PRACTICING ON THANKSGIVING.**

IT'S A CROSS-TOWN RIVALRY THAT FILLS THE STANDS.

IT'S SIGNING A LETTER OF INTENT TO PLAY FOR A GREAT COLLEGE PROGRAM.

IT'S REMEMBERING & HONORING THE GREAT TEAMS OF THE PAST.

IT'S DEVELOPING A BOND THAT LASTS A LIFETIME.

**IT'S ABOUT COMMUNITY.**
